Julie Monahan
ICT Business Development Manager
Washington State Department of

The Washington State Department of Commerce is partnering with Innovation Finders Capital (IFC) to take a select group of Washington state companies in the in the Artificial Intelligence (AI) and Machine Learning (ML) sector on a tech mission targeting business opportunities in Japan.

Companies will identify new sales opportunities in Japan, gain market intelligence that helps your business grow, meet key decision-makers at top Japanese firms, and leverage the unique economic relationship between Washington State and Japan.

Mission highlights include:

- Four days of business meetings, pitch events, and networking sessions with Japanese technology firms coordinated by mission organizers.
- Company site visits with renowned Japanese multinational technology firms.
- University and tech accelerator site visits.

Benefits of joining this mission

- Business networking opportunities at hosted receptions.
- In-country briefings providing market information and advice on how to do business in the Japan.
- Your company profile in the trade mission brochure, and mission website, circulated to companies in Japan.
- The team of experts at the Department of Commerce will provide a range of technical and consulting services that can get your business ready to connect you to potential business partners.
- **Export vouchers are available for qualified businesses to help offset some of the costs.**
